

HOW TO MAKE A SNOWFLAKE...

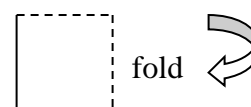

1. Cut a square of paper, 6" x 6". See next page for 6" x 6" square.

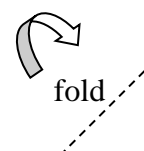

2. Fold in half long ways to be 3" x 6".

3. Fold in half again to be 3" x 3".

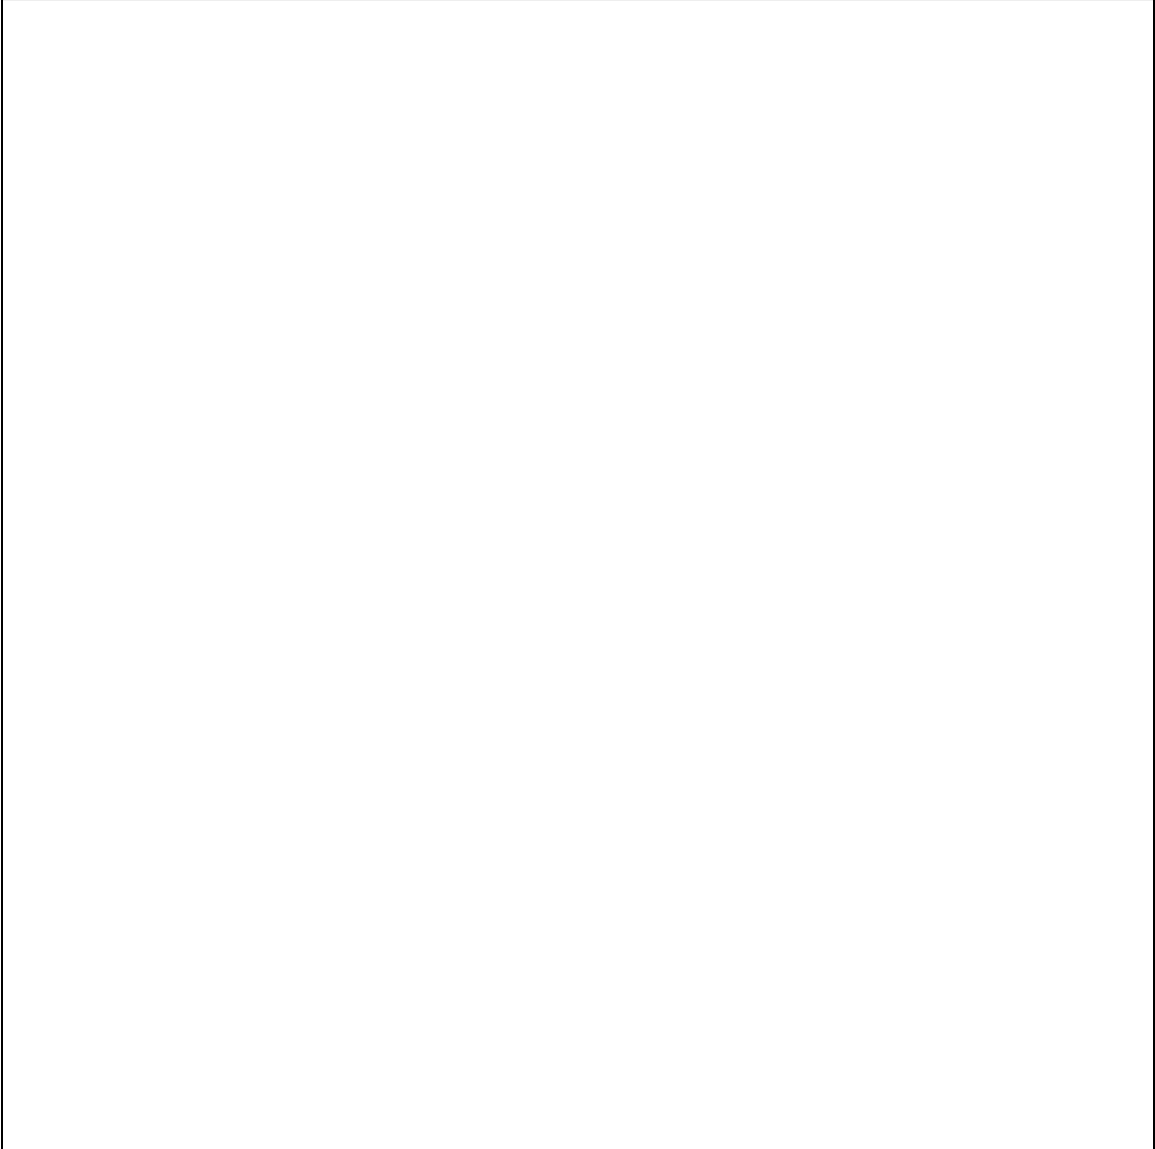

4. Fold in half again (to make a triangle shape).
(Note: The paper may not fit exactly into a perfect triangle)

5. Make small cuts into sides, but do not cut the corners or the snowflake will fall apart.

6. Unfold and see what you have created.

SNOWFLAKES

The snowflake's beauty we can see,
With each as different as can be.
For being one of a kind is the key,
To the specialness that we see.
Whether it's the snowflake...you...or me!
